Xaythany Service Center distributed dried fruit snacks to customers who came to refuel at the Plus fuel station

From 10–12 April 2026, Phongsavanh Bank Xaythany Service Center organized a promotional booth at the Plus fuel station to distribute dried fruit snacks to customers refueling both motorcycles and cars, over a period of three days.

During this period of high fuel prices, the bank aimed to provide small support and relief to customers. Although fuel costs remain high, customers were offered a small gesture of care through healthy and delicious dried fruit snacks, which also promote better well-being.
